

CAPITOL RESOURCE INSTITUTE

Candidate Privacy Pledge

I _____ am running for _____.

I pledge to support privacy in school facilities including: bathrooms, locker rooms, changing rooms, and showers.

I oppose the guidelines set forth by the Obama Administration demanding that all public schools open bathrooms, locker rooms, and showers to students based on their gender identity rather than their biological sex. A federal judge issued an injunction against this directive. There is no federal mandate to implement these policies.

I oppose California's former AB 1266, which demanded that all public schools open bathrooms, locker rooms, and showers to students based on their gender identity rather than their biological sex. This law is in direct conflict with the right to privacy guaranteed in the California Constitution.

I will oppose, with my vote, any and all efforts to force biological males and females to share any of the above mentioned facilities.

I will support, with my vote, efforts to keep these facilities separated by biological sex.

I believe that accommodations should be made for individuals who do not feel comfortable in traditional sex-separated facilities, but the privacy of others should never be compromised by those accommodations.

I believe, and will advocate, that bathrooms, locker rooms, and changing rooms should be used based upon an individual's biological sex, not their gender identity.
